

# La Font Blanca

La Font Blanca completes the group of buildings which make up The Huerto de Santamaría. It is a space which is almost independent from the rest of the complex, with the capacity to offer the highest standards of service to 300 people.

Surrounded by stone walls and the gentle sound of the water which flows around them, Font Blanca satisfies the expectations of those who seek exclusivity, privacy and high standards. This room is a homage to the El Puig fountain and its terrace, a gust of fresh air in a refreshing and welcoming atmosphere.
